What is the green table network?

We're a growing group of leading restaurant professionals, joined by the people who supply and support us.

We're making a conscious commitment to a shared goal: a deliciously sustainable future.

Because eating out doesn't have to cost the earth.

What do we do?

We put sustainability on the menu through innovative solutions that measurably reduce the impact we have on our world.

We provide a convenient guide for conscious diners.

We're making it easy for restaurants across Canada to join us.
